Vidyavihar East, Mumbai, Maharashtra, India

**Senior React / Frontend Engineer** — React.js · Redux · TypeScript · JavaScript ES6 · REST API · Tailwind CSS · Jira · CI/CD · Frontend Architecture, — FinTech, HRMS, ERP & Insurance Platforms

## Professional Summary

---

**Senior React/Frontend Engineer** with 5+ years of experience building scalable, high-performance web applications across **FinTech, HRMS, ERP, Healthcare, E-commerce & SaaS domains**. Strong expertise in **React.js, JavaScript (ES6+), TypeScript, Redux/Redux Toolkit, REST API integration, Tailwind CSS, Material UI**, and reusable component architecture. Experienced in owning features end-to-end, from requirement analysis and Figma implementation to deployment, while ensuring responsive UI, performance, code quality, and maintainability. Proven ability to optimize application performance, implement secure role-based access workflows, conduct code reviews, and collaborate effectively in Agile/Scrum teams.

## Technical Skills

---

**Frontend Technologies:** React.js, Redux / Redux Toolkit, Context API, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, ShadCN UI, Telerik Kendo UI, jQuery, jQuery UI

**API & Integration:** REST API Integration, AJAX, JSON, Third-Party Services

**Development Tools:** Git, Bitbucket, Jira, Webpack, Vite

**Development Practices:** Agile/Scrum Methodology, Code Review, Performance Optimization, Cross-Browser Compatibility, Responsive Web Design, CI/CD, Debugging & Troubleshooting, Mentoring

**UI Frameworks & Design:** Material UI, Figma-to-Production, Pixel-Perfect Implementation

**Good to Have:** TanStack Table, Manual Testing, Basic PHP Laravel Understanding

## Professional Experience

---

**Senior Software Developer, HaodaTech**

**Jan 2025 – Present**

*Thane, India*

- Engineered scalable React.js, TypeScript, and Redux UI components for an enterprise HRMS and ERP platform actively used by 100+ customers, improving maintainability and code reuse.
- Integrated RBAC-secured REST APIs across multiple ERP modules, standardizing authentication flows and error-handling patterns that reduced unauthorized access issues.
- Contributed to CI/CD pipelines built on GitHub Actions, streamlining build and deployment workflows to cut release friction and speed up shipping cycles.
- Mentored 2+ junior developers through structured code reviews and pairing sessions, raising team-wide code quality and consistency.
- Delivered secure FinTech payment workflows spanning UPI, card, net banking, reconciliation, and wallets, integrating REST APIs across the full payment stack.

**Frontend Developer, Thynksight Technology Pvt Ltd**

**Jul 2024 – Nov 2024**

*India*

- Redesigned and launched responsive web interfaces for Marsh, a global insurance broker, using React.js and Redux, boosting overall user engagement by 30%.
- Reduced platform bounce rate by 25% through targeted UI/UX refinements and frontend performance optimization initiatives.
- Increased mobile traffic by 40% by enhancing responsive design and cross-device usability across the entire platform.

- Coordinated closely with design, backend, and QA teams in an Agile environment, maintaining strong client satisfaction throughout each delivery cycle.

## Frontend Developer, Vervali Systems

Aug 2023 – Mar 2024

*India*

- Rebuilt the Gamistaan e-commerce platform end-to-end from Figma designs to production using React.js, accelerating design-to-development handoff speed.
- Improved page load performance by 25% through frontend optimization techniques applied across key rendering paths.
- Built the Neuberg Diagnostic Center website from scratch using React, Redux, JavaScript ES6, and Tailwind CSS, fully API-driven with zero static data.
- Developed 50+ reusable components shared across multiple modules, cutting code duplication and improving long-term scalability.
- Integrated REST APIs for healthcare applications, improving data-loading performance and overall responsiveness for end users.

## Frontend Developer, Eureka D-soft Private Limited

Nov 2019 – Apr 2023

*Mumbai, India*

- Built and maintained 3 production web applications in the piping and construction domain over 3.5 years using React, JavaScript ES6, and Kendo UI.
- Resolved cross-browser compatibility issues across Chrome, Firefox, Safari, and Edge, cutting QA bug-fix cycles by approximately 20%.
- Translated Figma and Adobe XD mockups into pixel-accurate, production-ready React components consistently across all 3 applications.
- Implemented SEO best practices across domain-specific workflows, improving organic discoverability and long-term search visibility.
